

A photograph of a horse-drawn sled in a snowy forest. The sled is yellow and has a metal basket on top. Two horses are harnessed to the sled, and they are standing in the snow. The background shows a snowy landscape with trees and a bright sky.

TIMBER HARVEST

**Gain Experience in Traditional
Logs-to-Lumber Craftsmanship**

Felling/Hauling - Percheron Horse Team, Kurt Benson & Chris Porrovecchio of Foxbard Farm

Sawing - Jay and James Clark of J Team Sawmill

Timber Framer - Jeremy Topitzer
of Lyonsville Carpenters

Weekend of March 23 & 24 (Inclement Weather dates March 30 & 31)

Sliding Scale Workshop Fee of \$85 - \$115 includes lunch both days

Sliding Scale helps keep this program accessible. Please pay what you can.

This 2 day workshop will introduce you to the entire process of converting trees into lumber.

Learn how to select trees for a purpose, fell trees safely and accurately, haul timber with horses, saw timber into lumber, stack and store lumber properly, and understand properties of wood.
